LEGISLATIVE COUNSEL'S DIGEST

Bill No.

as introduced, _____.

General Subject: Board of Administration of the Public Employees' Retirement System: old-age, survivors, and disability insurance.

Existing federal law generally imposes taxes on employees and employers for the purpose of funding old-age, survivors, and disability insurance, commonly referred to as social security. Existing federal law authorizes states to enter into specified agreements with the federal government to extend social security coverage to employees of the state and its political subdivisions, as provided. California entered into such an agreement on March 9, 1951.

Existing law authorizes the Board of Administration of the Public Employees' Retirement System to administer the agreement between the state and the federal government to extend social security coverage to employees of the state and specified public agencies. Existing law authorizes the board to charge or assess a public agency, as defined, its share of specified costs incurred by the board in the administration of social security on behalf of the public agency. Existing law requires these charges and assessments, among other things, to be deposited into the Old Age and Survivors' Insurance Revolving Fund, a continuously appropriated fund. Existing law requires the board to add a penalty of 10% of a charge or assessment if the public agency's payment is delinquent for 90 days, as provided, and requires the penalty to be credited as revenue to the General Fund.

This bill would increase the penalty for a delinquent charge or assessment to 50% of that charge or assessment and would impose an interest rate of 7% annually on unpaid charges, assessments, and penalties after 120 days. The bill would require the charges, assessments, penalties, and interest to be credited as revenue to the Old Age and Survivors' Insurance Revolving Fund for use by the board, upon appropriation by the Legislature, for administrative purposes. The bill would require the board to submit to the Department of Finance for approval revised charges or assessments if the cumulative revenue of the Old Age and Survivors' Insurance Revolving Fund exceeds the approved program expenditures in any given year. The bill would also authorize the Controller to transfer funds from state agencies to the Old Age and Survivors' Insurance Revolving Fund when charges or assessments are levied on those agencies.
